

### **REMARKS/ARGUMENTS**

The present application has been allowed. In correspondence date May 17, 2006, the USPTO notified Applicant of an inconsistency between the seven drawing sheets of record and the five figures identified in the Brief Description of the Drawings. Applicant presents herewith five (5) replacement sheets of drawings to replace the seven drawing sheets previously of record. Applicant respectfully requests that the attached five replacement sheets be entered in this patent application and printed with the corresponding issuing patent.

#### **I. Amendment to Specification, Page 11**

Applicant herein amends the first complete paragraph of page 11 of the specification to conform two element number references to the element numbers in the related figure. The subject matter of the pertinent paragraph is unaltered.

#### **II. Replacement Sheets of Drawings**

Upon review of the specification, Applicant has determined that the references in the specification to Figures 1, 4 and 5 correspond to originally-filed Figures 4, 1 and 7, respectively. To provide consistency between the specification and the drawings, Applicant is submitting replacement sheets of drawings to correct the sequencing of figures.

<u>Former Figure Number</u> <u>(Original Drawings)</u>	<u>New Figure Number</u> <u>(Replacement Sheets)</u>
1	4 (4/5)
2	2 (2/5)
3	3 (3/5)
4	1 (1/5)
5	(deleted)
6	(deleted)
7	5 (5/5)

The element numbers in the replacement sheets are amended to conform to those in the specification. (Originally-filed Figure 5 and 6 are deleted as redundant in view of Figures 2 and 3.)

IV. Conclusion

Applicant submits that the attached replacement sheets correct any inconsistency between the specification and the drawings, and the present application is ready for issue. Applicant's representative may be contacted at 310-286-0377 to discuss any further pre-issuance formalities.

Respectfully submitted,

### AMENDMENTS TO THE DRAWINGS

Applicant submits herewith five (5) replacement sheets of drawings to replace all prior drawing sheets of record.

Replacement Sheet 1/5 includes the drawing labeled Figure 1, which presents the subject matter illustrated in former Figure 4 with substitute element numbers consistent with the specification (e.g., see pp. 11-15).

Table 1: Element Number Substitution: Figure 1 (former Figure 4)

Current No.	Former No.	Current No.	Former No.
100	400	108	412
101	400	109	452
102	404	110	454
103	406	111	456
104	408	112	457
105	411	113	458
106	410	114	460
107	450		

Replacement Sheet 2/5 includes Figure 2 previously of record, revised as follows: (1) element number text for 200 and 201 re-oriented horizontally; (2) handwritten text of element number 205 replaced with typed text; and (3) gray shadowing removed from element 201.

Replacement Sheet 3/5 includes the drawing labeled Figure 3 previously of record, revised to accommodate an increased font size.

Replacement Sheet 4/5 includes the drawing labeled Figure 4, which presents the subject matter of former Figure 1 with substitute element numbers consistent with the specification (e.g., see pp. 18-20).

Table 2: Element Number Substitution: Figure 4 (former Figure 1)

Current No.	Former No.	Current No.	Former No.
400	100	408	114
401	104	409	116
403	102	410	118
404	106	411	120
405	108	412	122
406	110	413	124
407	112	414	126

Replacement Sheet 5/5 includes the drawing labeled Figure 5, which presents the subject matter of former Figure 7 with the addition of element numbers consistent with the specification (e.g., see pp. 20-21).

Originally-filed Figures 5 and 6 are hereby deleted.
